ABOUT AEMS

The Associate of Engineering and management Studies run by a non-profitable Government registered Society in the field of education. AEMS was started for the advancement of Education. The Emphasis of Current activities is on creation of a concrete base of trained manpower in the field of Engineering, Commerce, Management, Business Studies, Computer and IT(Information Technology) at various levels of competence and also to contribute gainfully towards the continued professional needs of existing technical, Management and Skills Oriented Courses.

The AEMS is a professional institute conducting Diploma, Degree, Bachelors, Masters, Post Graduate Management, PGDBM, PGBM, Research & Development, Educational Oriented Skilled and Practical Work Experience based Education, courses in Part Time, Correspondence, Distance and Open Learning Mode, Online Mode Study, Hybrid Mode Study. These All are Industry Intergreted Work Experience Base Mode Educational Courses. In order to meet the rapidly growing needs for highly trained Engineers and Managers in the country and in particulars to make available up to date knowledge in the various field of Engineering at the very doorstep of meritorious youths and the practicing managers, the AEMS has been set up as an automous body. The institute conduct Diploma & Bachelors/Degree course in Engineering Management thus enabling to widen career prospects in the most sought after fields of today.

VISION

To create an ideal educational ecosystem where purposeful training and research thrive in engineering and management, nurturing exceptional talent for leadership and leveraging technology for the betterment of society.

MISSION

To deliver excellence in professional education through innovative teaching, industry relevance, and flexible learning; while fostering ethical values, collaboration, and responsible leadership for a progressive society.

MILESTONE

Opportunities to grow as an individual professional and make meaningful contribution to the society are vital consideration in selecting a career. In the present context to rapid social, economical and technological change in our country, qualification based on technical knowledge provides the best prospects and competitive advantage.

Presently due to rapid change in technology and scientific development, the aphorism 'Knowledge is Power' has required a new meaning. So, the Institution which can adapt easily with the changing scientific development, only can survive. So in the existing education system, where course content does not match with the expectations of Industry, a void is created.

Keeping this in mind a group of professional from different background-Industry, R & D and Education came together and conceptualised the AEMS which will concentrate in the field of Engineering. The curriculum were devised keeping in mind the requirement of the Industry and changing technology. The curriculum is flexible so that it can keep pace with the rapid development in Science and Technology.

EXAMINATION MODE

The examinations are conducted twice a year in the months of summer June/July Winter December/ January Between Both Summer & Winter Mid Term Examination in the Months of March/April or September/October Where Candidates Can Appear in the Mode of Offline Examinations, Online Examinations, Proctor Base Examinations, During the Examinations Candidates Can Submit their Answer sheet According to their selected mode of Examinations.

RECOGNITION

The AEMS is an autonomous institution. The course curriculum is recognised in the Industry and this is very helpful for students seeking job in Gulf/Foreign countries where this Institute is highly appreciated. Moreover it is in process of recognition from various Indian and Foreign universities and Ministry of Education, Government of India.

GENERAL INFORMATION

The institution conducts the following examinations :

One year Certificate Course in **Engineering & Management / Three year Diploma Engineering / Four year Degree Engineering** And also **Bachelors & Master Management programme** in various fields yet to start.

The institution examinations will be held twice a year, generally in June/July and in December/ January termed as summer and Winter Examination respectively in the scheme.

STUDY CENTER

The AEMSRES programs offer flexible learning through Classroom-Based Learning, Online Mode Learning, and Distance & Industry Integrated Learning, ensuring accessibility for working professionals and students alike. The study centres provide comprehensive academic support along with study materials in multiple formats, including printed books, PDFs, online modules, digital content, e-books, and industry-integrated practical materials, enabling candidates to continue their education alongside work and skill development. SCEM also features a Computer Assisted Online Learning System, allowing students to access educational resources, assignments, and skill-enhancement modules anytime. Candidates are required to have relevant work experience in their chosen field and must self-certify this experience as per course requirements. The CFD & OLII (Centre for Distance and Open Learning and Industry Integrated Online Mode) utilizes modern learning technologies to enhance the educational experience. Study centre fees are collected directly by respective institutes for coaching, training, practical sessions, and support services, which include project report guidance, submission assistance, industrial training, internships, placement support, and HR services to promote career growth and industry readiness.

Fees Structure

Programmes Courses	Years	Eligibility	Fees Per Semester	Examination Fees Per Semester
	Semester			
DIPLOMA ENGINEERING <ul style="list-style-type: none"> • Mechanical • Electrical • Communication Engg. • Civil • Computer Science • Automobile • Chemical • Architecture 	3 Yrs 6 Sem	Candidate Passing 10th Standard + (2 Years ITI) With appropriate Trade from a recognized institute. OR Candidate Passing 12th Standard examination with Physics and Chemistry as compulsory subjects along with one of the Mathematics/Biology (Botany and Zoology), OR 12th Science (with Mathematics as one of the Subject OR 12th Science With Vocational OR 12th Science With Technical.	₹10,000/-	₹2,500/-
DEGREE / BACHELOR / B.E / B.TECH ENGINEERING <ul style="list-style-type: none"> • Mechanical • Electrical • Communication Engg. • Civil • Computer Science • Automobile • Chemical • Architecture 	4 Yrs 8 Sem	Diploma in the relevant Discipline / Field/ Programme. Minimum of Two years Full Time work experience in a registered Firm/Company/Industry/Education and Government, Autonomus, Organization in the relevant field in which admission is sought.	₹12,500/-	₹2,500/-
